Tie Down Mate

Part Number 86072

Instructions

- Ideal for beach mooring of personal watercraft or small boats
- Screws is easily
- Removable installation, handle stows inside anchor tube
- Zinc coated for corrosion protection
- Use your cable or chain with lock to help prevent theft

Thank you for purchasing the TIE DOWN MATE. Please review the following instructions before using. With proper care, the TIE DOWN MATE will give you years of service.

The TIE DOWN MATE is designed as a ground anchor to secure your watercraft to a beach area.

1. Choose a location on the beach where you will want to secure your watercraft.
 2. Remove the plastic cover from the anchor and lift out the installation rod.
 3. Place the installation rod through the small hole in the top of the anchor to form a "T" handle in which to screw the TIE DOWN MATE into the ground or beach area.
 4. Using downward pressure, turn the anchor in a clockwise direction until the "loop" is at ground level, or until anchor is secure.
 5. Thread the rope provided or a locking cable though the loop and tie your watercraft or boat to the other end.
 6. A float is provided for using the TIE DOWN MATE in shallow water where a "floating" tie up is desired.
- Your TIE DOWN MATE can be used for many items requiring a ground anchor, boats, watercraft, pets, etc.

Parts List

Description	Qty
